

GLOBAL SOLUTIONS FOR ONLINE SUCCESS

WMS LIVE IN-BANNER & RICH MEDIA WEBCASTS

A new and powerful way to attract and engage your audience. Live In-Banner allows you to reach a larger and more targeted audience directly from the websites they visit.

Key Features & Benefits

- ✓ Communicate more effectively. Combines the benefits of a live rich media presentation, with interactivity, in a banner ad that can be placed on multiple websites.
- ✓ Scalable platform provides the ability to communicate to thousands of live viewers simultaneously.
- ✓ Registration and real-time reporting provides contact information and other valuable data.
- ✓ Virtual web centre can prioritize your leads for faster follow-up.

LIVE IN-BANNER ON-DEMAND

Effective marketing and advertising campaigns require unique, specific, and innovative solutions. Live In-Banner is available both live and On-Demand to best suit your needs. Flexible implementation options are coupled with many of the same features found in WMS live interactive products.

USING WMS LIVE IN-BANNER ALLOWING YOU TO CONTACT ALL THE VIEWERS!

Innovations in technology, rich media communications, and webcasting come together in Live In-Banner to more fully utilize the power of the Internet.

Important announcements need to rise above the "noise". Successful product launches hinge on reaching, and engaging your target audience. The most visible and well-attended events are always live.

Collects contact details, controls documentation distribution and provides other valuable information about your audience.

From Videomsn (Video Marketing Support Network), we support internet marketing needs through live multi-way video. Videomsn offer a convenient alternative, a high quality, cost-effective and easy-to-use video conferencing solution for every business.
